

JOB DESCRIPTION

| | |
|---------------------------|--|
| Vacancy reference: | SRF33543 |
| Post Title: | Lecturer in Housing Economics |
| Grade: | 7 |
| School/Department: | Henley Business School, Real Estate & Planning |
| Reports to: | Head of Department of Real Estate & Planning |
| Responsible for: | N/A |

Purpose

We are looking for a Lecturer to enhance the research and teaching capacity in the field of housing economics within Real Estate & Planning. This is a post for an active, high-quality researcher with interests in housing markets and policy issues.

We are a worldwide leading teaching and research institution and this appointment will add to our current strengths of more than 25 faculty members. We are a highly research-active department in a research-led business school and university. This means that there are ample opportunities and support for undertaking internationally recognised research, both individually and collaboratively.

Main duties and responsibilities

The successful applicant will contribute to the research activity of the school. This would include:

- Publication of articles in internationally recognised mainstream and sector specific journals.
- Preparation and submission of research grant proposals, and subsequent management of funded projects, individually or in collaboration with colleagues.
- Supervision of PhD students.

An important aspect of the appointment is teaching housing economics and policy at both undergraduate and postgraduate levels. The teaching allocation is considered within a balanced workload model, and account is taken of commitments for early career researchers and new lecturers undertaking training. Key aspects of teaching include:

- Developing and applying effective teaching methods, materials and assessment techniques recognising cultural, equality and diversity challenges.
- Marking student assessments and examinations and providing constructive feedback.

As a member of faculty you would be expected to actively participate in Department and Henley Business School promotion and recruitment initiatives such as, Open Days and Visit Days.

There will be leadership/administration elements to the role. This may include convening modules as well as taking on leadership of research initiatives and teaching programmes or other Departmental roles as requested by the Head of Department.

Supervision received

Mentoring will be provided for both research and teaching to advise and assist the appointee in satisfying the post requirements and in career progression.

Contact

The appointee will work with colleagues in Real Estate and Planning and also with colleagues across the University. External engagement with academic, institutional and professional bodies will also be expected as part of the role.

Terms and conditions

Full time permanent post, subject to satisfactory probationary performance.

This document outlines the duties required for the time being of the post to indicate the level of responsibility. It is not a comprehensive or exhaustive list and the line manager may vary duties from time to time which do not change the general character of the job or the level of responsibility entailed.

Date assessed: 06 October 2020
